

# MOL ESSENCE MOTOR OILS

## FREE RADICALS – AMONG YOUR ENGINE'S WORST ENEMIES

State-of-the-art engines operate at very high temperatures which puts considerable stress on the motor oils used. Damaging free radicals are generated in motor oil when it comes into contact with the harmful components of fuel combustion products and oxygen. Free radicals accelerate engine aging and reduce performance. The properties of motor oil deteriorate as a result of oxidation and it loses a significant part of its engine protection capability causing contamination of the oil and deposits in the engine. Moving parts wear out, corrosion occurs and engine life spans are reduced.

## TRIPLE ANTIOXIDANT PROTECTION

The special additives in **MOL Essence** range of motor oils successfully inhibit the motor oil aging process, provide maximum protection against the harmful effects of free radicals and thus significantly extend the life spans of motor oil and engine alike. On top of this, the carefully balanced additive system of the formula **provides triple antioxidant protection** compared to conventional motor oils guaranteeing an outstanding capacity to reduce the presence of the free radicals primarily responsible for the aging of motor oils, thus boosting oil and engine life spans.

**3X ANTIOXIDANTS  
FOR A LONGER ENGINE LIFE**

## MOL ESSENCE ENGINE OILS FOR VEHICLES EXCEEDED MANUFACTURER'S WARRANTY PERIOD

### OUTSTANDING ENGINE PROTECTION

Longer engine life, lower deposit and oil sludge formation.

### LONG OIL CHANGE INTERVAL

Lower operating costs and less environmental impact.

### HIGH PERFORMANCE

Guarantees the reliable operation of the engine.

### EASY COLD STARTING

Quick lubrication and full engine protection, even in winter.

### LOW OIL CONSUMPTION

Fewer refills.

### LOW ASH CONTENT\*

Outstanding protection for exhaust gas treatment systems.

\*MOL Essence Diesel 5W-40

# FOR PASSENGER CAR GASOLINE AND DIESEL ENGINES

## MOL ESSENCE 5W-30

- Especially recommended for high-performance gasoline injection engines equipped with catalytic converters, and ideal for direct fuel injection diesel engines as well.
- Ensures quick lubrication, thus offering maximum engine protection even with a cold start.

## MOL ESSENCE 5W-40

- For gasoline injection engines equipped with catalytic converters, and recommended for direct fuel injection diesel engines as well.
- Suitable for extra-long oil change periods.

MOL ESSENCE	ACEA	API	RENAULT	VW
5W-30	A3/B4	SL/CF		502 00/505 00
5W-40	A3/B4	SM/CF	RN0700, RN0710	502 00/505 00

## MOL ESSENCE 10W-40

- Recommended for older gasoline and normally aspirated and turbo-charged diesel engines.
- Protects against the formation of oil sludge and deposits.

## MOL ESSENCE 15W-40

- Suitable for older gasoline and normally aspirated and turbo-charged diesel engines.
- Provides permanent piston and combustion chamber cleanliness.

MOL ESSENCE	ACEA	API	BMW	VW
10W-40	A3/B4	SL/CF	LOONGLIFE-01	501 01/505 00
15W-40		SL/CF		

# FOR PASSENGER CAR AND LIGHT-DUTY VEHICLE DIESEL ENGINES

## MOL ESSENCE DPF 5W-30

- Its low ash content guarantees long term protection for diesel particulate filters.
- Provide excellent wear protection and long engine life.

## MOL ESSENCE DIESEL 5W-40

- Specially developed for direct fuel injection diesel engines equipped with Common Rail or PD TDI fuel systems.
- Its low ash content guarantees long term protection for diesel particulate filters.

## MOL ESSENCE DIESEL 10W-40

- Recommended for naturally aspirated and turbo charged diesel engines.
- Ensures protection against soot deposits and bore polishing, providing long engine life.
